9/16/08

Valued Distributor,

Asahi/America Inc. is pleased to announce we have upgraded our Pool-Pro line of butterfly valves.

Effective immediately with the release of Pool-Pro Type SP Butterfly Valve Price Sheet Rev. D 09-08, we will no longer offer Metal Gear-Operators for our 1-1/2" – 10" Pool-Pro valves. We will now be offering exclusively the Plasgear,TM all plastic enclosure Gear-Operator, as a standard for 1-1/2" – 10" Pool-Pro valves. As a result we have made 2 changes to the part numbering system for the Pool-Pro valves.

- Part numbers 1765015 – 1765060: Metal Gear-Operators for 1-1/2" – 6" valves are no longer available. Part numbers 1728080 and 1728100 for 8" and 10" valves with metal gear-operator are no longer valid, and are replaced by 3793080 and 3793100.
- Part numbers 3793015 – 3793100 represent our PVC body, PVC disc, EPDM seat 1-1/2" – 10" Pool-Pro Butterfly valve with factory mounted PlasgearTM all plastic enclosure gear-operator.

This upgrade is offered with no impact to List Pricing. Part numbers 3793080 and 3793100 are list priced identical to 1728080 and 1728100.

Please note that we will continue to offer two varieties of 12" Pool-Pro Valves. Part number 1728120 will remain for a metal gear-operator Pool-Pro valve, while part number 3793120 will be used for the upgraded version PlasgearTM gear-operator. The list prices are different as shown on the flyer.

Please take some time to familiarize yourself and your staff with these part numbers and feature changes.

If you have any questions, please contact your Asahi/America Customer Service Representative or District Sales Manager with any questions.

Sincerely,

Dave Hurley
